PROFESSIONAL SUMMARY

B.Tech Computer Science (AI & ML) student with hands-on experience building multimodal AI systems and full-stack web applications using Python and Django. Skilled in NLP, CNN-based image processing, and relational database design. Seeking a Python Full Stack Developer role to apply strong problem-solving ability and deliver scalable, production-ready software solutions.

TECHNICAL SKILLS

Languages: Python, SQL

Frameworks: Django, REST APIs

AI/ML: Natural Language Processing (NLP), Convolutional Neural Networks (CNN), Image Processing, Multimodal Systems

Databases: MySQL, SQLite

Tools & Platforms: Git, GitHub, VS Code

EDUCATION

Bachelor of Technology, Computer Science Engineering (AI & ML)
[College Name] | Graduating [Year] | CGPA: [X.XX]

PROJECTS

AI Medical Chatbot for Emergency Medical Assistance
Python | NLP | CNN | Image Processing

- Built a multimodal AI chatbot processing text, voice, and image inputs to deliver preliminary medical guidance in emergency scenarios
- Applied NLP techniques to parse and interpret user-reported symptoms with high accuracy
- Trained a CNN-based image processing pipeline to analyze uploaded medical images and support diagnostic suggestions
- Integrated text, speech, and vision models into a single response pipeline, improving guidance relevance over single-mode chatbots

CERTIFICATIONS

- [Python Certification – Issuer]
- [SQL Certification – Issuer]
- [Django Certification – Issuer]
- [AI/ML Certification – Issuer]

LANGUAGES

English, Telugu
